

SINGER®

OVER 170 YEARS OF TRUST WORLDWIDE

POWER PRECISION PERFORMANCE

WORLD'S NO. 1 SEWING BRAND!

Brand Legacy

Established in the year 1851 by Sir Isaac Merritt Singer, 'Singer Sewing Machine Company' has been a pioneer in manufacturing and selling sewing machines for 170 years. Brand has achieved a significant level of global reach and recognition in over 100 countries. The company created its foothold in India in the year 1871 and has since been synonymous with sewing and stitching across the country. While continuing its glorious journey, the company was acquired by "Indian Sewing Machine Company Limited" in the year 1977. The company was later renamed as "Singer India Limited", as we know it today, with its headquarters in New Delhi. Singer India has its manufacturing facilities in Jammu in the state of Jammu and Kashmir in India.

Overview

An ISO 9001:2015 certified company; Singer India Limited (SIL) has two major business segments - Sewing Products, Home & Kitchen appliances. Sewing products are marketed under the brand "Singer" & "Merritt". Sewing products include zig-zag fashion maker, hi speed industrial sewing machine, straight stitch machines, artisan & sewing accessories. Our range of home & kitchen appliances span across washing machines, room coolers, refrigerators, fans, water heaters, food processors, dry and steam irons, mixer grinders, sandwich makers, toasters, hand blenders, etc.

The company has showrooms, distribution networks and a robust after sales service network Pan India.

Brand Singer is the world's no 1 sewing brand and also has been recently selected and awarded with "INDIA'S MOST TRUSTED SEWING MACHINE BRAND" by Brand Trust Report 2023.

S-450B

Product Features

- ① S 450 Series machine is a hot melt adhesive pressurized continuous fusing machine, it has to prevent migraine with special properties suitable for fabric and fusible interlining of thermo-compression bonding purposes.
- ② It has limit switch, automatic belt warping prevention by motor.

Application

It can be widely used in various non-flammable agents contain fabric collar, chest, cuffs, placket, waist top fabric and adhesive products smooth stiff and resistant to washing, easy trend, the dragon it applicable to all resins collar lining, non-woven adhesive liner.

MODEL	S-450(500)(600B)
Max. Bonding Width	450X500/600mm
Upper Belt Width X Length	450X1350/500X1350/600X1350mm
Bottom Belt Width X Length	450X1650/500X1650/600X1650mm
Operating Speed of Conveyer Belt	0-10m/min
Bonding Temperature	≤190°C
Electric Heating Power	5.2/5.2/6KW
Power Supply	220V/1PH/50Hz
Gross Weight	202/202/222kg
Outline Dimension (LxWxH)	1965X973(1073)X1093mm
Packing Dimension	1050(1050/1130)X955X730mm

BLIND STITCH BOTTOM HEMMING MACHINE

S-101D

Product Features

- ① Direct drive motor: Equipped with direct-drive motor, can be directly driven responsively.
- ② Sewing stitch: Single looper, arc pendulum method, single thread chain stitch.
- ③ Sewing mode: For adoption of blind stitch mode, the stitch is invisible from the surface of fabric, which maintain the clothes much neater and more elegant.
- ④ Extra device: Auto thread trimmer, auto orientation and auto presser foot lifter, greatly improve the working efficiency.

Application

Widely used for hemming cuffs, pants, shirts, gloves, socks, front and back of suits, etc. and suits various material such as cotton, wool, chemical fiber etc. (Treasure type)
