SINGER® | SE9185
Sewing and Embroidery Machine

Explore a new world of creativity.

Introducing the SINGER® SE9185 sewing and embroidery machine

Are you ready to connect with endless inspiration, useful sewing functions, and thoughtful embroidery features? Then you're ready to create with our first Wi-Fi connected machine: the SINGER SE9185 sewing and embroidery machine.

Tap into the 7" touchscreen

The expansive screen helps you select designs, program thread colors, and even see your selected stitch in real size before you begin.

mySewnet™ Connectivity

Connect all mySewnet enabled devices to communicate wirelessly between them to transfer designs, monitor your embroidery progress with 100mb free cloud storage.

Design with 400+ built-in options

Create with the 151 embroidery designs, 10 fonts, and over 250 stitch options already loaded into your machine.

SINGER® | SE9185
Sewing and Embroidery Machine

All of these features create an experience that's versatile, convenient, and user-friendly.

Monitor Your Progress

Track progress of your Embroidery stitches; get notified for change of thread and completion of your design. Also, with Photo Stitch turn any photo into an Embroidery Design and send directly to your mySewnet device or into cloud account.

Creative Control

Customize your embroidery projects by moving and combining designs on screen, scaling elements to fit, and rotating patterns to suit yourstyle.

Large Embroidery Area

Load a large embroidery design or combine designs with the included 170x100mm (6.7x4") hoop.
